EDUCATION

Savitribai Phule Pune University

Bachelor of Engineering (B.E.) in Computer Engineering — 3rd Year Undergraduate Student

Pune, India

2023 – 2027

- CGPA: 8.27/10

Savitribai Phule Pune University

Honours Specialization in Cyber Security

Pune, India

2025 – 2027

EXPERIENCE

AI/ML Virtual Intern

Jan 2026 – March 2026

EduSkills (Google AI/ML)

Remote

- Completed a 10-week virtual internship focused on Artificial Intelligence and Machine Learning
- Worked with Python, Pandas, NumPy and Scikit-Learn for data analysis and model development
- Performed data preprocessing, feature engineering and model evaluation on real-world datasets

Data Visualization Virtual Intern

Aug 2025

Tata Group

Remote

- Translated complex datasets into 4 interactive dashboards to highlight key trends for business strategy
- Presented strategic insights to leadership, identifying potential revenue growth of 15% via data storytelling

Cybersecurity Virtual Intern

Aug 2025

Deloitte

Remote

- Investigated a simulated cyber breach by analyzing 500+ forensic data logs to pinpoint the root cause
- Drafted a strategic executive report outlining 3 critical security risks and recommended mitigation steps

PROJECTS

HabitFlow | React.js, CSS3, Git | [View Project](#)

- Developed a responsive web app for habit tracking, improving user retention rates by an estimated 20%
- Designed a seamless UI/UX with smooth animations, ensuring sub-100ms load times on GitHub Pages
- Implemented local storage functionality to persist user habits and progress across sessions

Interviewa | MERN Stack, JWT | [View Project](#)

- Built a full-stack interview preparation platform featuring authentication, interview sessions, performance feedback, XP progression, and leaderboard functionality
- Implemented secure JWT-based authentication and integrated MongoDB Atlas for persistent user accounts and interview history
- Developed topic-based interview workflows with question generation, answer tracking, automated evaluation, and rank progression

Password Security Analyzer | Python, Regex, Cryptography Libraries

- Devised a credential auditor that evaluates password entropy on a 1–5 scale with 99% accuracy
- Implemented real-time validation to enforce security compliance against top 10 common vulnerabilities
- Generated detailed security reports with recommendations for stronger password practices

ReviewShield | Python, NLP, Streamlit | [View Project](#)

- Built an NLP-powered fake review detection system using TF-IDF vectorization and Logistic Regression trained on 500K+ Amazon product reviews
- Implemented text preprocessing techniques including tokenization, stopword removal, and lemmatization for effective text classification
- Developed an interactive Streamlit dashboard for real-time review analysis with confidence scoring and model performance metrics

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL, JavaScript, HTML/CSS

Frameworks: React.js, Node.js, Express.js, Tailwind CSS

Databases: MongoDB, PostgreSQL, MySQL

Libraries: Pandas, NumPy, Matplotlib, Scikit-Learn

Developer Tools: Git, Docker, Jupyter Notebooks, Postman, VS Code

Security Tools: Wireshark, Nmap, Metasploit
